

Financial Assistance Resources

It's not uncommon for pet owners to be faced with financial difficulty at times when their pet needs medical attention. While we do not provide billing services, we have compiled a list of resources that you may find helpful in planning for your pet's treatment.

Care Credit can be very useful in times of need, as well as for yearly routine needs. If approved, you can receive interest free payments for up to 6 months. You can apply at www.carecredit.com

ScratchPay is a new way to fund pet expenses. It's a loan for families that have less than a 700 credit score. To apply go to www.scratchpay.com

Some families have luck with setting up a "Go fund me" fundraiser at www.gofundme.com

Check with family or friends to see if anyone close to you can help financially.

Below are a few resources that sometimes can provide financial assistance to pets in need. You may also find helpful results if you do a Google search of "grants for sick pets".
